

# Village of DeForest Athletic Complex

## CLIENT

Village of DeForest

## LOCATION

DeForest, WI

## PROJECT SERVICES

- Master Planning
- Land Surveying
- Public Engagement
- Utility Design
- Stormwater Management
- Landscape Architecture
- Construction Administration
- Construction Observation

The DeForest Athletic Complex is a state-of-the-art facility located on 25 acres, south of Innovation Drive between River Road and Conservancy Way and north of Windsor Road, with excellent access to I39/90/94. The complex is comprised of four diamonds (two-skinned/two synthetic infields), two long grass fields and a full concession stand with open air shelter.

Vierbicher has a long-standing relationship with the Village of DeForest and was proud to provide a comprehensive list of services for the construction of the Conservancy Place Athletic Complex, including:

- attending meetings with user groups
- completing an updated master plan
- completing site surveying
- preparing a CSM to divide the current property
- preparing a mass grading plan of the site
- preparing sanitary sewer and water distribution designs
- completing a parking lot layout and design
- preparing detailed layout plans, grading plans, and detail drawings for the softball fields, football fields, and tennis courts.
- developing a stormwater management plan
- developing plans for pedestrian access
- completing a landscaping plan for the site.
- preparing bidding documents and administer the bid process.
- completing construction administration, observation, and staking activities.
- providing a topographic survey, certified survey map, preliminary plat

The park has become a sports tourism destination already showing signs of great success. The Village of DeForest looks forward to the many recreational and economic opportunities this project provides.
