

# Secret Places

**CLIENT**  
Veridian Homes

**LOCATION**  
Madison, WI

- PROJECT SERVICES**
- Civil Engineering
  - Surveying
  - Construction Management

Desirable Secret Places Neighborhood has been a popular destination since around 2005 for purchasing Veridian-built homes. McFarland is known for its award-winning schools including Waubesa Elementary, Indian Mound Middle, and McFarland High School; its ideal location near Lake Waubesa; and its convenient location, just a five-minute drive from downtown Madison. Secret Places lots are spacious with homes ranging from affordable starter homes to luxurious, upscale energy-efficient new construction.

Imagine homesites sprinkled throughout lush greenspace alive with trickling creeks. Picture strolling along a nature trail that highlights Wisconsin's lovely glacial topography. Envision quiet outdoor spaces for contemplation, and community gathering places that prompt friendly reunions with the neighbors. It all awaits outside your doorstep in a neighborhood called Secret Places, located within the McFarland school district

Vierbicher was pleased to provide Grading and Erosion Control Plans, Permit Applications, Specifications and Contract Documents, Easement Documents, Construction Administration, Construction Staking, Condo Plats, Final Plat, and Erosion Control Inspections for this project.
