CLIENT

Pelton Builders

LOCATION

Reedsburg, WI

PROJECT SERVICES

- Civil Engineering
- Land Surveying
- Stormwater Management
- Permitting

Huntington Park apartments is located on the northeast side of the City of Reedsburg - a thriving rural community at the edge of Wisconsin's Driftless region. With over 10,000 residents, the 147 units were designed to fill a public need for multi-family residential housing in the city.

A recent housing study showed Reedsburg has a need for a wide range of housing types including workforce, senior and low income. It was determined that City assistance would be needed to encourage development.

This project is a new, upscale three-story building filled with quality apartment homes that have unique design and many amenities located in Reedsburg, Wisconsin. It was developed in three phases, with roughly 50 units per phase. Project funding was supported through Tax Incremental Financing (TIF) funds

Vierbicher provided site design, stormwater management, land surveying, and municipal permitting.
