Encompass Health

LOCATION

Fitchburg, WI

PROJECT SERVICES

- Civil Engineering
- Land Surveying

Encompass Health, a leading provider of inpatient rehabilitation and behavioral health services, has begun construction on a new rehabilitation hospital in Fitchburg, Wisconsin. The new hospital will provide inpatient rehabilitation services for patients with a variety of conditions, including stroke, brain injury, spinal cord injury, amputation, and complex orthopedic conditions.

The new rehabilitation hospital will be approximately 60,000 square feet and will feature 56 private patient rooms, with the potential to go to 80, a therapy gym, a hydrotherapy pool, and a dining room. The hospital will also have a dedicated unit for patients with brain injuries.

Construction on the new hospital is underway and expected to be completed in 2024. The hospital is expected to create approximately 100 new jobs.

Encompass Health is a leading provider of inpatient rehabilitation and behavioral health services. The company operates more than 220 inpatient rehabilitation hospitals, 220 outpatient rehabilitation clinics, and 200 behavioral health facilities in the United States, Puerto Rico, and the United Kingdom. Encompass Health is committed to helping patients achieve their rehabilitation goals and return to their homes and communities as soon as possible.

Vierbicher is providing site design, land surveying, and zoning services for the project.
