

The Learning Experience

CLIENT

Bradford Real Estate

LOCATION

Oak Creek, WI

PROJECT SERVICES

- Civil Engineering
- Land Surveying
- Landscape Architecture

A new childcare center opened in Oak Creek, Wisconsin in the summer of 2024. The Learning Center is a 10,000-square-foot facility, that will offer a variety of programs for children aged 6 weeks to 12 years, including early childhood education, preschool, kindergarten, and after-school care. The Learning Center is part of The Learning Experience, a national chain of childcare centers with a focus on providing high-quality education and care.

Vierbicher's scope of work encompassed a comprehensive range of services, including boundary and topographic surveying, site planning and engineering, and landscape architecture. This involved precisely mapping the project site, designing the building's layout and infrastructure, and creating an aesthetically pleasing and functional outdoor environment for children to learn and play. The team meticulously addressed key site design elements such as grading, drainage, utilities, parking, and landscaping to ensure a safe and sustainable development that meets the unique needs of a childcare facility. The Learning Center will provide a much-needed resource for families in the Oak Creek area, offering high-quality early childhood education and care.
